DAMAGE SUIT COMPROMISED

Equitable Directors Escape
Trial in the Circuit
Court

Decree Entered by Judge Brown
Today—Some Directors
Heavily Taxed

The \$20,000 damage suit filed September 27th, 1905, by Alvan Moor, receiver for the defunct Equitable Building Loan Fund and Savings Association, against the directors of the association, to recover the deficit on the books, was compromised today, a decree to that effect being entered by Special Judge Edgar A. Brown, of Indianapolis.

Ever since the suit was filed an effort has been made to compromise, but it did not reach a degree of certainty until ten days ago. The compromise agreement was signed on Tuesday of this week.

The compromise was affected on the amended complaint filed May 6th last, by the receiver's attorneys. This complaint charge the directors with negligence in not requiring the secretary of the association to give bond, in not holding regular meetings, seeing to it that the books were audited and kept in the correct manner.

The association went into liquidation June 20th, 1902, by a resolution passed by the board of directors. Z. E. Maury was president, and Gates Sexton was secretary from March, 1893, to December, 1904.

The following men were made defendants in the suit: Z. E. Maury, who was a director in the association for 8 years; T. W. Betker, who was a director for 2 months; L. J. Geraghty, a director for 10 months; F. B. Johnson, a director for 7 years; Robert Hiner, a director for 1 year; Grant Gregg, a director for 8 years; Frank Brown, a director for 2 months; Frank Wilson, director for 6 years; A. L. Aldridge, director for 5 years; W. F. Kenner, director for 1 year; J. F. Moses, director for 5 months, and J. L. Cowing, who was a director for 6 months.

No record of the date when Ed Kelley, Dr. F. G. Hackleman, C. F. Mullin and Dr. F. M. Sparks became directors could be found. They were members of the board, however, when the concern went into liquidation.

Gates Sexton was made a defendant in the suit, not as a director, but as secretary.

The decree entered by Judge Brown is to the effect that it was agreed between the receiver pursuant to authority given him by the court and the defendants, John F. Moses, Edward M. Kelley, Grant Gregg, A. L. Aldridge, Joseph L. Cowing, F. B. Johnson, Frank Wilson, C. F. Mullin, F. G. Hackleman, L. J. Geraghty and F. M. Sparks, that judgment should be rendered against the defendants by the court for \$2500, jointly and severally, and that it was further agreed that said judgment for \$2500 should be in compromise and full satisfaction of the matters and allegations against the defendants and their liabilities, and should exempt them from any further action, whatever, brought jointly or severally.

The amounts to be paid by the various defendants were agreed upon by the defendants and their attorneys. Smith, Cambern & Smith, Douglas Morris and others, as between themselves. They are given in the court's decree as follows:

John F. Moses, \$250; Edward Kelley, \$312; Grant Gregg, \$63; A. L. Aldridge, \$250; Joseph L. Cowing, \$250; F. B. Johnson, \$250; Frank Wilson, \$200; C. F. Mullin, \$245; F. G. Hackleman, \$150; L. J. Geraghty, \$25; F. M. Sparks, \$25.

Nothing was said in the argument concerning the defendants, W. F. Kenner, Z. E. Maury, T. W. Betker, R. J. Hiner, nor Frank Brown, and it is presumed that action against these men still stands.

It is set forth in the decree that the agreement to compromise shall not include the defendant, Gates Sexton, and shall in no wise affect his alleged liability to the receiver.

It was ordered by the court that the receiver recover from the defendants jointly and severally the sum of \$2500. All costs in the suit were assessed against the plaintiff, and it was ordered that the judgment in no wise affects Gates Sexton.

Families of Two Victims of
Tuesday's Accident Have
Consulted Attorneys

Traction Company Disclaims
Liability for Three
Fatalities

As a consequence of the fatal accident in this city, Tuesday, it is expected that damage suits against the Indianapolis & Cincinnati Traction company, whose current charged the barbed wire fence that killed the three men will be filed soon.

The families of two men who met death at the fence have already consulted attorneys in regard to the matter. The traction company bore the funeral expenses of one of the victims. Claude Cambern, general counsel for the traction company, in a statement regarding the legal phase of the affair, said: "Our company feels that it is in no wise to blame for the unfortunate accidents, its direct cause can only be attributed to a freak in the elements."

"It is entirely out of reason to contend, as some are doing that it was intentional and criminal negligence on the part of the company or any employee of the company, for had the officials or any employee, for that matter, been aware of the fact that the fence was charged with electricity, it would have been attended to immediately."

"We appreciate that it is indeed a sad affair, and while we do not think the traction company is liable or that the parties concerned can recover damages, we have agreed to bear the funeral expenses of Mr. Gloré, and we expect to do the same thing by the other victims provided there is no unfriendly action upon the part of their relatives."

Officials of the traction company contend that the company is not liable also for the reason that the accident occurred on the company's private right-of-way, and that of the C. H. & D. railroad, and that the men saw the insulator burn out and failed to call the company's attention to it.

Other attorneys here contend that the company can be held liable for criminal negligence in placing a guy wire so near the fence. All railroad accidents, they say, occur on the railroad's private right-of-way, yet damages in many cases are obtained.

BANKERT CASE REVIVED AGAIN

Inquiries Made if Mrs. Bankert
is to be Tried
Again

Since the Rush circuit court for the fall term has convened, many people who are interested in the noted case of Mrs. Anna Bankert charged with the murder of Norman Cook, in August 1905, have been anxious to learn what action is to be taken. According to Deputy Prosecutor Kiplinger the murder case will not be considered by the court at this time, but states that the case will not be thrown out by any means. It is understood that the state's attorneys are still working on the case and getting whatever evidence can be obtained and that another trial will be set some time during the winter after the fall court docket has been looked after.

Mrs. Bankert is still under bonds and enjoys freedom at her country home with her children. It is said that she seldom discusses the affair to her friends only when approached on the subject and then most of the time she is reticent in expressing an opinion.

HILLING LOOKING FOR TROUBLE NOW

Former Rushville Man Said to
Be Hunting Officer at
Richmond

According to the Richmond Item, Edward Hilling, of that city, a former Rushville man, is looking for trouble. Hilling deserted his family and left it to be cared for by public charity, after the members had been ejected from the house they occupied. A warrant was made out against him, charging wife desertion, but his wife, the prosecuting witness, had left the city of Richmond and the case was dismissed.

"Officer Golden arrested Hilling," says the Item, "and in order to subdue him, struck him in the face with his fist. It is Golden's scalp that Hilling is after. He has announced his intention to 'clean' the officer or get whipped in the ordeal. Tuesday morning he spent loafing about police headquarters waiting for his man. He visited the place several times Wednesday, but Golden was not on hand. The officer is 'busy' on his beat and has not had any occasion to be at headquarters—at least when Hilling was there."

The funeral of William Pettiford, one of the victims of the unfortunate accident, Tuesday, was held at 1:30 this afternoon in the Second M. E. church, conducted by Rev. T. T. Carpenter, and under the auspices of the local lodge, Colored Odd Fellows and the Household of Ruth. Interment was in East Hill cemetery. The funeral was a large one.

OUR OWN FLAG IS NOW THERE

Uncle Sam Watching Cuban
Affairs at Short
Range

It is Recognized in War Department that Intervention Would
be no Mere Holiday Matter

Havana, Sept. 13.—The insurgents in Pinar del Rio and Santa Clara provinces have signaled the resumption of war by blowing up railroad bridges and committing other acts of destruction. As the insurgents in Havana province have made similar threats there is much apprehension here.

Havana, Sept. 13.—The United States cruiser Denver has arrived here. The vessel was watched with great interest while entering the harbor and saluting.

Consolacion Del Sur, Cuba, Sept. 13.—Pino Guerra's force is marching in the direction of Havana.

Washington, Sept. 13.—President Roosevelt is keenly alive to the movement of the revolutionists in Cuba and the responsibility of the United States in case the situation grows worse and intervention becomes necessary. It is known that the president will not intervene unless it appears absolutely necessary, yet steps have been taken which would make such intervention effective. The ships that have been sent to Cuba are there for the purpose only of protecting American interests and furnishing an asylum for Americans who may be in danger from the warring factions.

Actual intervention would mean the use of the army and all the available forces will be ready. Under present conditions the army has been kept in a better state of preparation than usual. Correspondence between the president, the secretary of war and Gen. Bell, chief of staff, has provided for all contingencies. It is recognized that intervention would be no holiday matter. Although no regular troops are available on the Atlantic coast it is known where transports can be obtained as soon as needed.

Authority for the intervention in Cuban affairs is contained in the third article of the Platt amendment. It reads: "That the government of Cuba consents that the United States may exercise the right to interfere for the preservation of Cuban independence, the maintenance of government adequate for the protection of life, property and individual liberty, and for discharging the obligations with respect to Cuba imposed by the treaty of Paris on the United States now to be assumed and undertaken by the government of Cuba." This with the other provisions of the Platt amendment were incorporated in the constitution of Cuba.

Some weeks ago the Sixth and Twenty-first infantry were ordered home from the Philippines, it being stated that their service in the Pacific islands was completed. The return of these regiments will bring available troops to the Atlantic coast and also three transports.

SPANISH WAR MEN ELECT OFFICERS

Annual Reunion of 161st Ind.
Regiment Held at
Indianapolis

One of the first things Ex-Governor W. T. Durbin did on returning from Europe was to attend the reunion of his regiment, the One Hundred and Sixty-first Indiana, which was held at the State House in Indianapolis Wednesday.

The regiment elected the following officers: President, Col. W. T. Durbin; vice president, Capt. A. A. Anier, of Monticello; secretary-treasurer, Lieut. J. P. Brunt, of Anderson.

The veterans voted to hold the next reunion at Anderson. Last night the regiment gave a smoker and campfire. Several Rushville Spanish war veterans, members of Company H. of the 161st regiment, which was organized here, attended the reunion.

ONE SCHOOL ROOM CLOSED

Scarlet Fever Scare is on at
Milroy—One Case
Reported

A scarlet fever scare is on at Milroy and one grade in the Milroy school has been closed all week awaiting developments. A little girl in the Crosby family is slightly ill of the disease and several other children who were in the same room with the Crosby girl are ill, but have not yet developed all of the scarlet fever symptoms. Dr. F. H. Green, secretary of the County Board of Health, while at Milroy Tuesday, ordered the one room in which the children seemed to have been exposed closed for the remainder of the week and fumigated at the rate of two pounds of burned sulphur to each 1000 cubic feet. The school was closed also to find out, if possible, how many children had been exposed. It was in this same room that several scarlet fever cases developed last year.

RUSH COUNTY HORSES ARE DOING WELL

Alice Brooks Wins Heat at
State Fair—Leonard W. and
Red Tell's Showing

The Rush county horses have been making a good showing this week at the State fair. Wednesday Alice Brooks driven by Dick Wilson, took the first heat of the 2:19 pace, purse \$600, in 2:09½. In this heat Wilson sent her to the front and she was never ahead. F. J. Park, who won the next two heats, challenged her in the stretch, but Wilson shook her up a bit and she came under the wire, winner by a good margin. This race will be finished today.

It is likely that Nellie, which finished third in the 2:19 pace, will find a new owner in a short time. J. W. Rhodes, who owns the animal, offered her for \$1500, and Starter Merrill agreed to take her if she could show a mile in 2:10. As she was well up in the wheat, which was on in 2:09, she undoubtedly covered the distance in 2:10.

Leonard W. driven by John Dagler, as the contender in the last two heats of the 2:24 trot, purse \$600, Victor C., driven by Wilson, finished third in the first two heats.

Harry Jones won first money in the free for all trot at Indianapolis, Tuesday, with Red Tell, purse \$1000. He also won second money Monday in the 2:18 trot.

Aileen Wilson, owned by Orpheus Horton and driven by Clell Maple, took second money Tuesday in the 2:16 pace.

RUSHVILLE, IND., SEPT. 13, 1906

Concerning the killing of three men in this community by the electrically charged barb wire fence, the Indianapolis News has editorially:

"We doubt if there has been any where a more impressive and tragic demonstration of the deadly power of electricity than that by which three men were killed Tuesday, near Rushville, under very peculiar circumstances. The men were going early in the morning to their daily work, two of them in company and the third from another direction alone. To reach their place of work it became necessary for them to cross a barbed wire fence. The first man who attempted to do so was instantly killed, the second was killed in trying to rescue him, and the third was killed in trying to cross the fence at another point.

"Investigation showed that the wire fence, as commonplace and harmless-looking as any of thousands that traverse the country in all directions, had been charged with electricity sufficient to kill every person that touched it. Throughout its whole length it was a live wire. Further investigation showed that the charge of electricity was indirectly due to a stroke of lightning that had disarranged the machinery of an electric power house and converted the fence into an engine of death. The first impulse of most persons would probably be to say that the company owning the power house was peculiarly liable for these deaths, but the courts would probably hold that the stroke of lightning which caused the accident was an 'act of God,' and unavoidable. But such accidents will tend to make people a little cautious about touching harmless-looking metallic substances. It seems that in appropriating the conveniences and benefits of electricity who have to incur the dangers also."

WILL COME OUT WHOLE.

State Board of Agriculture on Easy Street This Year.

Indianapolis, Ind., September 13.—The attendance at the state fair has proved very satisfactory to the state board of agriculture. Had it not been for the rain storm yesterday afternoon, which frightened many people away, it is very likely that the attendance today would have been a record breaker. As it was there was a vast array of people on the grounds. The fair will close tomorrow night. It was reported today that the board had taken in enough money before the rain storm to pay for all expenses. The latter are very heavy owing to the enormous number of attractions and the long premium list. The members of the board are hopeful of making a large amount of money this time, as they still have an indebtedness on the grounds. They are also anxious to get together enough money to begin the erection of some new permanent buildings for exhibits. The grounds are among the best in the country for state fairs, but the board is shy on the right kind of buildings. The members still hope that enough money will be realized this time to pay off all the indebtedness on the grounds.

BRYAN STANDS PAT

The Nebraskan Reiterates His Views on Government Ownership.

NOTHING TO TAKE BACK

In a Carefully Prepared Statement Mr. Bryan Repeats the Heresy That Is Alienating His Party.

Significant Fact That He Defies Party Opinion in Marse Henri's Own Town.

Louisville, Sept. 13.—Entering the southland for the first time in two years, William Jennings Bryan yesterday afternoon received a welcome which in warmth and spontaneity has not been surpassed by any of the greetings given him since his return from his tour of the world. His arrival in the city provoked a great outburst of acclamations from thousands of marchers and yet more thousands on the streets. His reception at the Armory last night, where he addressed a crowd of 12,000 people, was nothing less than a volcanic eruption of enthusiasm.

The mass meeting at the Armory constituted Kentucky's greeting on behalf of the south, and although the attendance of southern notables was smaller than at first expected, on account of Mr. Bryan's recent acceptance of numerous invitations from other southern cities, still it was a representative southern gathering, graced by the Kentucky leaders of Democracy, a number of prominent Democrats from other southern states and a great mass of citizens from Kentucky and Indiana. Mr. Bryan was welcomed to Kentucky by his whilom opponent, Mr. Henry Watterson, who presided over the meeting. The other speakers preceding Mr. Bryan were Senator Carmack of Tennessee, representing the south, and Senator W. J. Stone of Missouri, who introduced the guest of honor.

When Mr. Bryan entered the hall leaning on the arm of Mr. Watterson, there was a demonstration that lasted ten minutes, thousands of flags being waved in unison with the surges of cheers that swept over the throng. Mr. Watterson's address of welcome touched off the pent-up enthusiasm almost at the start, and when at the close he pointed to Mr. Bryan and said, "Here he is; God bless him and give him wisdom," the audience yelled for five minutes.

Following his felicitous phrases of response to the welcome, a great hush fell on the crowd when Mr. Bryan announced that he would "read a statement concerning a topic which had been generally discussed since he had touched on it during his speech in New York." He then read his statement, which in part is as follows:

"In my speech at the New York reception I made some remarks concerning the government ownership of railroads, and I thought that I had expressed myself so clearly that my position could not be misconstrued even by those who desired to misconstrue it. The New York speech was prepared in advance. It was not only written, but it was carefully revised. It stated exactly what I wanted to state, and I have nothing to withdraw or modify in the statement therein made. What I say tonight is rather in the nature of an elaboration of the ideas therein presented.

"After quoting from the Democratic platform of 1900, that 'a private monopoly is indefensible and intolerable,' and after laying it down as a principle that public ownership should begin where competition ends, and that the people should have the benefit of any monopoly that might be found necessary, I stated that I had reached the conclusion 'that railroads partake so much of the nature of a monopoly that they must ultimately become public property and be managed by public officials in the interests of the whole community.' I added: 'I do not know that the country is ready for this legislation; I do not know that the majority of my own party favors it, but I believe that an increasing number of the members of all parties see in public ownership a sure remedy for discrimination between persons and places and for the extortionate rates for the carrying of freight and passengers.'

"I then proceeded to outline a system of public ownership whereby the advantages of public ownership might be secured to the people without the dangers of centralization. This system contemplates federal ownership of the trunk lines only and the ownership of local lines by the several states. I further expressed it as my opinion that the railroads themselves were responsible for the growth of the sentiment in favor of public ownership, and said that while I believed that the rate bill recently enacted should be given a fair trial, we might expect to see the railroads still more active in politics unless our experience with them differed from the experience we had had with franchise holding corporations.

"This statement of my views has been assailed by some as an attempt to force these views upon the Democratic party, and by some as an announcement of an intention to insist

on the incorporation of these views in the next Democratic national platform.

"Let me answer these two charges. I have tried to make it clear that I expressed my own opinion, and I have never sought to compel the acceptance of my opinion by anyone else. Reserving the right to do my own thinking, I respect the right of everyone else to do his thinking.

"I have too much confidence in the independent thought in my own party to expect that any considerable number of Democrats would acknowledge my right to do their thinking for them even if I were undemocratic enough to assert such a right.

"If you ask me whether the question of government ownership will be an issue in the campaign of 1908, I answer I do not know. If you ask me whether it ought to be in the platform, I reply, I cannot tell until I know what the Democratic voters think upon the subject. If the Democratic voters believe that the next platform should contain a plank in favor of government ownership, then that plank ought to be included. If the Democrats think it ought not to contain such a plank, then such a plank ought not to be included. It rests with the party to make the platform, and individuals can only advise. I have spoken for myself and for myself only, and did not know how the suggestion would be received. I am now prepared to confess to you that it has been received more favorably than I expected. There is this, however, that I do expect, namely, that those Democrats who oppose government ownership will accompany their declaration against it with the assertion that they will favor government ownership whenever they are convinced that the country must choose between government ownership of the railroads and railroad ownership of the government.

"I still advocate stricter regulation and shall rejoice if experience prove that regulation can be made effective. I will go farther than that and say that I believe we can have more efficient regulation under a Democratic administration with a Democratic senate and house than we are likely to have under a Republican administration with a Republican senate and house, and yet I would not be honest with you if I did not frankly admit that observation has convinced me that no such efficient regulation is possible and that government ownership can be undertaken on the plan outlined with less danger to the country than is involved in private ownership as we have had it or as we are likely to have it. Among the reasons that have led me to believe that we must, in the end, look to government ownership for relief, I shall mention two or three. First, and foremost, is the corrupting influence of the railroad in politics. When the president, following the Democratic platform, insisted upon regulation he was met with the opposition of the railroads, and every point gained in favor of the people was gained after a strenuous fight.

"I have no idea that the railroads are going to permit regulation without a struggle, and I fear that their influence will be strong enough to very much delay, if it does not entirely defeat remedial legislation.

"Another reason which has led me to favor government ownership is the fact that the people are annually plundered of an enormous sum by extortionate rates; that places are discriminated against and individuals driven out of business by favoritism shown by the railroads. You say that all these things can be corrected without interference with private ownership. I shall be glad if experience proves that they can be, but I no longer hope for it."

NO VOTE BUYING

Daviess County Committees Agree on This Important Point.

THEY MAKE IT PLAIN

Democratic Committee Made the Proposition to Their Opponents and Get a Straight Answer.

"We Will Not" Declares the Latter Committee, "and You Shall Not" Buy Votes.

Washington, Ind., Sept. 13.—The coming election in this county will be free from vote-buying and vote-selling, bribery and debauchery, if the declarations of the central committees of both parties count for anything. Recently the Democratic central committee declared in favor of a pure election and asked for a conference with the Republican county central committee to devise ways and means for conducting the election free from questionable methods. The Republican central committee, through its chairman, Josiah G. Allen, issued a plain and unequivocal answer to the Democratic committee. It declares that there shall be no vote buying in Daviess county this fall. "We will not," declares the committee, "and you shall not."

M'COY AND SHERRICK

Both Model Prisoners and Conforming to Regulations.

Lafayette, Ind., Sept. 13.—A recent visitor to the state prison at Michigan City found Tom McCoy, the Rensselaer banker, working in the binder twine department engaged in tying sacks. Afterward he was permitted to meet McCoy in the reception room, and during a limited conversation, notable for the stoical manner of the erstwhile banker, McCoy said that he had been making the best of it and that he had not lost an hour's sleep since he had been in prison. The warden spoke of him as being a model prisoner, who had never asked a favor of any kind. He also met "Dave" Sherrick, who is employed on the convict farm, who said that when he was first received in prison the food did not agree with him and the surroundings were galling, but he had made up his mind to accept what came and made the most of it. Sherrick expressed great hope of a reversal of his case in the supreme court.

A REVOLT IN SIGHT.

Indiana Miners Complain Against Their Leaders.

Terre Haute, Ind., Sept. 13.—The top coal question in this district took a new turn last evening when a call was issued for a mass meeting of miners at Seelyeville Monday. The purpose stated in the call is to bring about a special convention in order to refer the question to the entire district. Members of the locals back of the movement say that if they do not get justice in the convention an effort will be made to oust the officers. It also was stated that many of the miners are dissatisfied with the present organization and are preparing to withdraw from the United Mine Workers of America and join the Industrial Workers of the World. The top coal dispute resulted from the decision of the companies to leave up a certain portion of the coal to make the roof safe. The miners contend that this is not necessary and that it reduces their necessary capacity.

Northwest Indiana Conference.
Lebanon, Ind., Sept. 13.—The Northwest Indiana M. E. conference was opened here with an address of welcome by Judge Terhune of Lebanon. The Rev. Charles W. Tinsley of Terre Haute responded on behalf of the ministers. Bishop Hamilton of San Francisco addressed the conference, telling of conditions in that city since the earthquake. He made an appeal for donations, and many contributed to the fund. The business sessions are now in progress. The conference will be in session until next Monday, when the appointments will be made.

OHIO REPUBLICANS

Indorse the Continued Leadership of Senator Dick.

Dayton, O., Sept. 13.—In what had been for years the "off year" in state elections, the Republicans of Ohio Wednesday held one of the hottest conventions in the history of the party in this state. And still more remarkable was it for the fact that the contest was not over the naming of candidates for the state offices, for which the convention had been called, but over the selection of a chairman of the state executive committee, involving the state leadership of United States Senator Dick. The senator won, not only on this proposition, but also on the question of indorsement of his work and that of Senator Foraker in the United States senate, many of the Republicans of the state having taken the position that in view of the fact that the senators had not entirely agreed with the policy of President Roosevelt on national legislation it would be inconsistent to give an indorsement of equal force to both the president and the two senators. In winning a victory over Congressman Burton and Harry M. Daugherty on these two questions Senator Dick retained his chieftainship and prestige, but on the other hand the platform, in which appeared the merchant marine and other planks, indicated that Mr. Burton had not been idle in other directions, for the Cleveland leader's views were clearly imbedded in some of the best parts of the platform. On two points, primary voting for United States senators and tariff revision, one of the Cleveland delegates introduced as a minority report these two planks, apparently with the approval of Mr. Burton, and the convention defeated both.

WILL MAKE A TEST.

Movement to Compel Mormon Smith to Answer.

Salt Lake City, Utah, Sept. 13.—A warrant for President Joseph F. Smith of the Mormon church has been demanded by Charles Mostyn Owen, a detective who was employed against B. H. Roberts and later against Senator Reed Smoot by the protestants in each case. Owen swore to a complaint, charging unlawful relations between Mr. Smith and Mary T. Schwartz Smith, a plural wife, to whom a son was born June 1 last. The warrant, before it can be served, must have the approval of County Attorney Christensen or one of his deputies. Christensen is out of the city and his assistants refuse to act until his return. Apostle Smoot, other church officials and wives and children of President Smith are named as witnesses.

Six Million Dollars Demanded.

New York, Sept. 13.—A suit involving damages of \$6,000,000 in which the United Fruit company is named as the defendant, and which is based upon the alleged violation of the Sherman anti-trust law, has been filed in the United States circuit court. The plaintiff is the American Banana company, an Alabama corporation. The company charges that it has been damaged to the extent of \$2,000,000 through the acts of the United Fruit company. The Sherman anti-trust law provides that an injured party may collect triple damages.

Obituary.

Mary R. Hoag was born in Chittenden county, Vermont, October 11th, 1829, and died near Carthage, Indiana, September 4th, 1906, on the farm where she had lived for over fifty years. She was the youngest daughter of Nathan C. and Abigail Robinson Hoag.

She came to Indiana as a teacher in Friends' Boarding School now Earlham College.

On August 31, 1849 she was married at Moncton, Vermont, to Daniel Clark, who died April 31st 1874.

Left with the charge of a young family she was untiring in her efforts for their education and right bringing up.

Sacrifices unnumbered she has made for her children, always patient and gentle, not only in the time of her last illness extending over almost a year, but throughout her life, she has shown forth the beauty of a life in our Heavenly Father.

In both the secular and Bible school she excelled as a teacher. She had a keen appreciation of beauty in nature, art and literature.

In church work she was active and efficient. Though for many years prevented from the attendance of meetings her judgment was clear and keen.

One sister and six children remain of her immediate family. Two children had died in early childhood.

One who knew her long and well says: "She belonged to a line of ancestry who feared God, and were willing to obey Him at any cost; who did not tremble in time of battle." As for herself she was a woman of unusual brilliancy of mind, integrity of character and sound judgment, as many who have been with her in the school-room and on various committees in church affairs and in other spheres of life can testify.

"THANK YOU," SAY SMOKERS.

All who Love a Cigar Appreciate Thos. W. Lytle's Introduction of Chicos.

It is reported that the smokers in Rushville are going to present a testimonial to Thos. W. Lytle for assuming the agency of Walsworth Bros. Chicos, a high grade Havana filled cigar that sells for a nickel.

Thos. W. Lytle says they are perfectly satisfied, though, with the appreciative "thank you" they have had from lovers of a good cigar to whom they have recommended the Chico. It is one of the best smokers in his show case, and sells at a price so low that any one can afford to smoke it.

The price, however, is not the reason why our leading lawyers, bankers, and business men call for the Chicos. They buy it and smoke it because it is a good cigar. Try one yourself and join the Chico Club.

Free Autopiano Recitals

Each Evening this Week, Until Further Notice is Received.

C. F. Edgerton & Son's, 322 and 324 North Main St., Rushville, Ind.

Hours 7 to 9.

Everyone Welcome

Ever since the introduction of the Detachable Piano Player, there has been a constant demand for a combination instrument. In the Autopiano we have realized this delightful combination, and in return have received the plaudits of the best musicians. The keyboard of the piano has not been changed, and can be

played manually at any moment. The Autopiano, with its player action built inside the piano, gives you two instruments in one, thus economizing room, as it is no larger than the ordinary instrument. It also relieves you of the inconvenience of placing and taking away the old style cabinet player. When the piano is not being used with the perforated roll, the pedals slide into the case and are hidden from view, so that the piano looks like any other instrument. Another of the many charms of the Autopiano lies in the fact that there exists absolutely nothing, musically, beyond its reach. Its flexible fingers operated by pneumatics are equally as sensitive as the human touch. The player is so completely under the control of the operator that he can at will bring out the thundering tones of a Rubinstein, or the singing and delicate tones of a Paderewski.

If you have a piano and no one to play it, call on the Autopiano representatives at C. F. Edgerton & Son's, 322 N. Main St. and arrange to exchange your piano on one of these wonderful instruments.
